

SPECIAL NEEDS BOXER

CODY

LOOKING FOR HIS FOREVER HOME

Please meet Cody!! Cody is a ten month old male flashy fawn boxer. He was found by a good samaritan on the side of the road near Southern Boulevard in West Palm Beach. They think he might have been hit by a car, or may have been born with a spinal deformity, but Cody's hind legs do not work normally.

Cody is in the care of Coastal Boxer Rescue (CBR). Cody's foster home has been to several vets and they have determined that Cody will not heal from his spinal cord injury. Although when Cody tries to walk slowly, he drags his knees on the ground, he can run and jump (very high) and loves to play especially with other dogs. CBR is working to get Cody a wheel chair so that they no longer will drag on the ground when he is not playing with his puppy pals or in a full speed run. Cody does have bladder control issues because of his lower body problems but we are working to control the issue with diapers and crate training. He needs to be walked about every 2-3 hr.

Cody wants to say "Hi" to everyone he meets! He is a very friendly and well mannered boxer! He is a shadow boxer, constantly at the side of his humans and needs a lot of love, patience, and someone with the ability to provide the medical care he may need in the future. Cody eats well, sleeps through the night and sometimes is just a couch potato. Cody is up to date on all his shots.

Cody is in search of a loving, caring, attentive, and dedicated forever home. If you are the one, please contact Coastal Boxer Rescue at info@coastalboxers.org or 1-866-281-8209.

Sincerely,
Georgia Vince
